Fund Flow – partnering with you to help your business run smoothly

Do you sometimes feel your business would flow a lot more smoothly if you didn't have to divert your energies from the main business in hand to deal with time-consuming financial tasks?

If so, you're not alone. Many of our clients found themselves in a similar situation.

That's why we developed Fund Flow, an individually tailored accounting service, created as a direct response to a growing number of clients who wanted a more hands-on approach to accountancy.

How is Fund Flow different from outsourcing?

When most businesses contract out a particular function to a third party, for example manufacturing, facilities management or payroll, they tend to refer to the process as 'outsourcing'.

We think that creates rather a 'them and us' situation – whereas we believe that our services are a completely natural extension of your business.

We work in partnership with you to create a fully integrated, seamless process to meet your business needs; whether you require simple bookkeeping, a full accounts service or full Finance Director provision.

With **Fund Flow partner-sourcing**, you will discover how we are able to dovetail with your company, providing you with all the benefits of an in-house function with none of the overheads or staffing worries.

What can Fund Flow do for me?

At Fund Flow we can take the burden of financial processing from your shoulders. Working in partnership with you, we will tailor an accounts package to fit your exact needs.

Fund Flow can take care of:

- Issuing and chasing outstanding invoices
- Keeping on top of outgoing payments
- Checking your year ends and tax returns have been sent off in good time
- Monitoring business cash flow
- Making sure the workforce is paid on time
- Ensuring you are compliant with auto enrolment
- Maximising tax opportunities
- Planning strategically for future business growth

We can do as much or as little as you need, giving you the peace of mind that all your accounting requirements are being taken care of by our expert team.

For each stage of business life

- Are you the owner of a young company, just starting out and in need of an accounting team to handle your bookkeeping and year end returns?
- Do you sometimes feel your business would run a lot more smoothly if you didn't have to divert your energies from the main business in hand, to sort out the company's finances?
- Are you a growing company, with more complex accounting support but you're not quite at the stage where you feel you can justify employing your own accounts team?
- Are you an established company, but struggling to keep reliable accounts staff?
- Maybe the payroll and newly introduced workplace pensions requirement is proving to be too much of a headache for your company?
- Perhaps you are in the process of recruiting a new Finance Director and need interim senior-level support to keep your business running smoothly?

Whatever your accounting and financial services requirements, the team at Fund Flow are here to offer you a seamless service.

By partnering with you, we are able to ensure that all your accounting, invoicing, tax, payroll and financial needs are taken care of, so that you can take care of what you do best – running a successful business.

Fund Flow – providing accounting peace of mind for businesses

Why choose Salhan Accountants?

We are a multi award-winning accountancy firm, supporting private and business clients through every stage of their financial lives.

Creating Fund Flow is one such example of a business solution created by Salhan Accountants which was born as a result of enquiries from businesses who knew what they wanted but were having trouble finding a specialist that could truly meet their needs.

Businesses told us they wanted an integrated, hands-on service which would provide all of the benefits of an in-house accounting function with none of the hassle.

They also told us they wanted to be able to cherry pick the accounting, taxation, invoicing, payroll, auto-enrolment, and strategic financial planning

functions they needed - a tailored solution - without paying the earth for it.

In addition to Fund Flow, we are able to offer traditional accountancy and tax planning services.

We are also a recognised authority in highly specialised areas including:

- Forensic accountancy
- Tax litigation
- Tax and VAT fraud investigations

Our team of friendly, knowledgeable accountants have the expertise to offer a whole-of-life service for all your commercial and private accountancy needs.

Want to make your business run more smoothly? Just go with the flow...
